

DARPA's Bay Area SDR Hackfest

Tom Rondeau
DARPA/MTO Program Manager

GRCon17

09/13/2017

Software Defined Radio makes the electromagnetic spectrum programmable

Service Academy Swarm Challenge (SASC)

U.S. Service Academies compete in up to **25-on-25** aerial swarm battles

Swarms managing behavior in real-time through RF link

Limitations due to spectrum congestion
Solutions constrained to application layer

Application

Transport

Network

Data Link

Physical

https://3dr.com/wp-content/uploads/2017/03/Solo_r10c-1024x443.jpg

Connecting to a UAV through SDR creates a new programmable surface

<http://blog.lumoid.com/this-4th-of-july-you-might-watch-drones-instead-of-fireworks/>

Swarms of over 500 truly autonomous drones are currently impossible

Application

Transport

Network

Data Link

Physical

Programmable over the full stack changes the limits

DARPA's Hackfest: A three-part event

Hacker Space

- Open space to develop, learn, and play
- Host experts in SDR
- Some problems will be provided for context/ideas
- Brainstorming session to take place at GRCon17

Speaker Series

Experts will discuss emerging technologies in larger societal contexts

Missions

- Team-based
- Teams must apply
 - Expect 8 teams
- Hardware provided
 - UAV + SDR
 - Ground station
- Focus on the problem book

CORY DOCTOROW

BEN HILBURN

PARIMAL "PK"
KOPARDEKAR

JOE GRAND

LINDA DOYLE

AMIE STEPANOVICH

HEATHER KIRKSEY

CHRIS ANDERSON

SAMY KAMKAR

PIERRE DE VRIES

DARPA-provided hardware will form basis of Hackfest Missions and team activity

UAV

Ground Station

Equipment	Part
UAV SDR	USRP B200mini
UAV Computer	Raspberry Pi 3
UAV	3DR Solo
Antenna	1 Omni
Flight controller	Pixhawk-2
Backup	915 MHz controller

Equipment	Part
GS SDR	USRP B210
GS Computer	<ul style="list-style-type: none"> • Ubuntu based standard laptop • ≥ 256GB SSD hard-drive • ≥ 16GB of RAM • ≥ 4 core i7 Xeon
Antenna	4-omnis

DARPA-provided software radio application to control UAV from the ground station

- Simple example implementation
- gr-uaslink
- Basic flowgraph
- User manual
- OpenEmbedded on RPi3
- Root access
- Free and Open Source Software

Code will be available through Git service at code.mil

Hackfest Schedule

November 13 – 17, 2017

	Monday 13-Nov	Tuesday 14-Nov	Wednesday 15-Nov	Thursday 16-Nov	Friday 17-Nov
8:00	Breakfast	Breakfast	Breakfast	Breakfast	Breakfast
9:00	Kickoff: Rondeau	Team Work /Hacker Space	Team Work /Hacker Space	Team Work /Hacker Space	Team Work /Hacker Space
10:00	Team Orientation				
11:00					Final Flight Tests
					Hacker Space wrap-up
12:00	Lunch	Lunch	Lunch	Lunch	Lunch
	Keynote <i>Doctorow</i> <i>Stepanovich</i>	BS Session	BS Session	BS Session	Keynote <i>Doyle</i> <i>de Vries</i>
13:00	Team Work /Hacker Space	Team Work /Hacker Space	Team Work /Hacker Space	Team Work /Hacker Space	
14:00					Mission Judging
15:00					
16:00					
17:00	Lightning Talks	Lightning Talks	Lightning Talks	Lightning Talks	
	Dinner	Dinner	Dinner	Dinner	Dinner
18:00		Keynote <i>Hilburn</i> <i>Kirksey</i>	Keynote <i>PK</i> <i>Anderson</i>	Keynote <i>Grand</i> <i>Kamkar</i>	Closing: Rondeau
19:00					

Registration open now!
